

NATIONAL INSTITUTE OF GENETICS

YATA 1111, MISIMA, SZUOKA-KEN

JAPAN

November 3, 1956

Dr. J. Lederberg
Department of Genetics
University of Wisconsin
Madison 6, Wisconsin

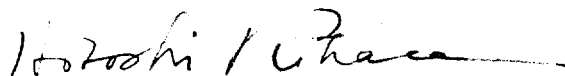

Dear Dr. Lederberg:

It was a great pleasure to know that you are satisfied with Mr. Iino, and I am very grateful for the interest you are taking in him.

Beyond doubt, Mr. Iino needs further guidance which he would not find in any comparable way in the Misima institute. The only reason for calling him back from his originally for one year planned visit to U. S. A. was his position here which would have to remain vacant for a longer time.

Since Mr. Iino has found in you a powerful and eloquent advocate to plead his cause, I am agreeable that he may stay in your Institute, if you wish so, as long as you consider it advisable.

Sincerely yours,

Hitoshi Kihara
Director
